## MEMORIAL KEEPSAKES - Forever close, Forever treasured

We are deeply sorry for your loss. During such a tender time, we are truly honoured to offer a collection of keepsakes created to hold space for your grief and help you feel the continued presence of your loved one close by. For those who are open to it, we also offer a selection of supportive crystals to bring comfort, grounding, and gentle energy along the way.

Whether worn, carried, or placed somewhere meaningful, each piece is designed to honour their life and the bond you shared. A gentle, lasting reminder that they remain with you—always in your heart and memories.

**Our memorial keepsakes are made from high grade stainless steel (unless stated otherwise).**

**As jewellery stainless steel has the following benefits:**

- ✓ Hypo-allergenic – great for sensitive skin
- ✓ Will not tarnish or rust
- ✓ One of the hardest metals, stainless steel is resilient & durable
- ✓ An affordable alternative to sterling silver

**Our catalogue has the following categories which are colour coded on the edge of each page**

<b>PENDANTS</b> Page 3 - 11	<b>CHARMS &amp; EARRINGS</b> page 12	<b>BRACELETS</b> Page 13—15
<b>KEYRINGS</b> page 16	<b>URNS</b> Page 17 - 18	<b>CRYSTAL PRODUCTS</b> page 19 - 23

*We also have a separate catalogue for **Animal memorials**, please let us know if you are interested in looking at this also.*

**All of our memorial keepsakes have space for cremation ash, however their capacity varies.**

**We have indicated how much space is available beside every keepsake, with the following codes:**

## CRYSTAL CARVINGS - SKULLS

Crystal skulls are often imbued with various symbolic meanings, reflecting their association with ancient wisdom, knowledge, and spiritual practices. Here are some key interpretations:

**Higher Consciousness:** Crystal skulls are believed to carry the energy of ancient wisdom, helping to expand one’s higher consciousness and connect with past loved ones who now guide us.

**Death and Mortality:** Skulls, in general, are a symbol of death and mortality, reminding us of our finite existence. However, crystal skulls may also represent the transmutation of death into spiritual growth, renewal, and eternal life.

**Mesoamerican and Native American Cultures:** In Mesoamerican and Native American cultures, skulls are often associated with the afterlife, death, and the cycle of life. Crystal skulls may be seen as a symbol of this connection, bridging the physical and spiritual realms.

**Goddess Kali:** In Hindu mythology, Goddess Kali is depicted with a garland of freshly severed heads, symbolizing the destruction of ego and the cyclical nature of life and death. Crystal skulls may be seen as a representation of this theme, reminding us of the impermanence of all things.

**Healing and Psychic Powers:** Crystal skulls are believed to possess healing properties, particularly for the mind and heart, and are said to enhance psychic powers, facilitating connection with the spiritual realm.
