MEMORIAL KEEPSAKES - Forever close, Forever treasured

We are deeply sorry for your loss. During such a tender time, we are honoured to offer a collection of keepsakes created to help you hold onto the memories, love and connection you shared with your loved one. For those drawn to crystals, we also offer a selection chosen for their traditional associations and symbolism.

Whether worn, carried or placed somewhere meaningful, each piece offers a personal way to honour their life and keep their memory close. A lasting reminder of the love and connection that remain part of your life.

Our memorial keepsakes are made from high grade stainless steel (unless stated otherwise).

As jewellery stainless steel has the following benefits:

- ✓ Hypo-allergenic – great for sensitive skin
- ✓ Will not tarnish or rust
- ✓ One of the hardest metals, stainless steel is resilient & durable
- ✓ An affordable alternative to sterling silver

Our catalogue has the following categories which are colour coded on the edge of each page

PENDANTS Page 3 - 13	ANIMAL MEMORIALS Page 14 - 16	CHARMS & EARRINGS page 16	BRACELETS Page 17—19
KEYRINGS page 20	URNS Page 21-22	CRYSTAL PRODUCTS page 23 - 27	

Pictures are to scale as much as possible, with the exception of bracelets and charms, but please be aware there may be a margin of error by a millimetre or so with some of the items. Measurements are also indicated underneath each pendant.

*We also have a separate catalogue for **Animal memorials**, please let us know if you are interested in looking at this also.*

All of our memorial keepsakes have space for cremation ash, however their capacity varies.

We have indicated how much space is available beside every keepsake, with the following codes:

- H** Hollow - These have the largest capacity for ash, memento, essential oils, or small stash
- L** Larger capacity - Not hollow, but still has a larger space for a larger volume of ash, or memento
- S** Small capacity - Can hold more than a few grains of cremation ash
- T** Tiny capacity - A really tiny space for only a few grains of cremation ash
